Official News-Letter of the Founders' Younger Boys' Camp
The American Youth Foundation, 3713 Washington Boulevard, St. Louis, Mo.

Volume V December, 1934

Ding dong! ding dong! ding dong! There goes the bell for the night's doings. What's on for to-night? Low council, did you say, and down in the stockade? Gee, that's fine! We always have fun at low council. Hey there, Ted, better scoot back to your tent and put on a couple heavy sweaters and a wind-breaker. It's December, you know, and we sure can't sit around the council fire in a light sweater like we do in July, and besides there is a foot of snow on the ground, so bundle up warm, everybody. Well, come on, let's go, we're late! Nearly everybody has already scooted down the trail. Just see how they have packed down the snow. Oh, oh, it looks as though someone skidded here and took two or three other fellows with him. There's a bunch having a snow battle! Come on, let's get in on it! Gee, isn't everything pretty! Just see how those trees are bending over with the weight of snow. My, but I'm glad we're having this Christmas camp up at Miniwanca this year.

Well, here we are at the stockade and we're just in time, too, because Gus is standing up to call the council to order.

"After the usual custom: 'Wakonda da dhu, wah pa din ah ton ha! Wakonda da dhu, wah pa din ah ton ha!' Be seated, chiefs and braves. Well, it is certainly good to see you all again. It hardly seems possible that almost a half year has passed since we assembled here in the stockade last July. But here we are for a jolly council circle at Christmas time, and since we haven't seen each other for a long time, I think the thing for us to do this evening will be to have our friend, Stoke, read the anthology. You remember you all had a postcard from the Founder office asking you to send in some news about yourself, and so, Stoke, if you are ready, we will just sit here a while and let you tell us all about ourselves."

Stoke speaking: "Great Chief, the anthology contains news about the fellows who answered Wadjepi's request and whatever items we could pick up here and there from other sources. If you do not hear all of the names of the bunch you know that the only reason they are not included is because we did not get their cards in time to be included in this issue of the anthology."

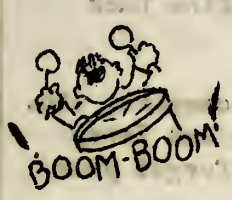
News from West Ginny: Down in Webster Springs, David Curtin fell off his pony sometime ago and broke his arm, so has not been very active outdoors. (Too bad, Davy.) Devoting much time to his basement laboratory and to his black cocker spaniel puppy - "Inky" - a white mongrel named "Twinkle" and his cat - "John Brown." Lost another dog - "Star" shortly after camp.

Carter Allen, too, has had many pet dogs but is now without one. Ruby, his last one, died a few weeks ago. Wants a collie. (St. Nick, please note.) Playing football and basket ball, and doing his best to get back to camp.

At Galesburg, Illinois, Bill Terry is playing in the school band and also playing basketball - hoping to make the team. Brother John played a good deal of football this Fall and is going in for Scout work.



Dave Jewitt (Cleveland) is looking forward to being in the camp band with Harvey next summer. (Come on, you other horn-tooters, banjo plunkers, fiddle scratchers, etc., - get tuned up!)

Don Wells (also from Cleveland) had a great trip up the St. Lawrence River with his dad. Caught black bass and some perch. Expects to be at Miniwanca next summer.

"Duff" Orndorff says: "Hello, hello, hello! Been so busy in school that I don't know the score. Just finished exams and am selling tickets for everything! (Special note to - "Dear Joe - That proverb is 'Out of sight; out of mind!'") "Hi to everyone - including Murch, Orwig, etc. Looking forward to some more fine sailing next summer."

Robert Watts (Oak Park, Illinois) has been very busy keeping in the first division of his class. Hobby: getting over the flu. Athletics: playing football. Social: In class play. Pet: Chin Chin - Persian cat - follows Bob around like a dog. Says Bob: "Just try to keep me away from camp next summer!"

Dave Jackman (Wichita, Kansas) is still gaining after his six pound start at Miniwanca last summer. Planning big on next summer in camp. (That's fine, Davy - we'll be looking for you, brother Charles, Fred Higginson, and some more Wichita fellows.)

Art Holtzmann is now living out in Denver, Colorado. His hobby is - Latin; indoor activity - mince pie; outdoor activity - skiing. Likes the altitude - "A mile high and miles ahead."

Proctor Waldo had a good time with Billy Bartelt at the Fair. Says his summer in camp helped him very much when he got back to school. Trying to get his dad to make him "a real small automobile." So far he has the wheels and part of the frame. (Two of our older girl campers have Austins - We'll see what we can do for you, Proctor.) Hasn't any turtles at this writing but hopes to catch a lot next year.

George Bramhall (Webster Groves, Mo.) went on an overnight Scout hike with the temperature down to freezing and the wind blowing a gale. Because of experience gained at Miniwanca - making beds and keeping warm, he was very comfortable although some of his friends didn't fare so well. "Merry Christmas to all of you."

Station D-A-Y-T-O-N on the air - Bob Ander speaking: "Dayton is setting in for a cold winter. I am in two orchestras at school. Just got a dog - part St. Bernard and Irish Setter. See you all at Miniwanca next summer!"

Bob Huff (Maplewood, N. J.) reports that the pet gold fish have died. (Our sympathy, Bob.) Hopes to be in camp again next summer. (We'll sure be looking for you.)

Tallahassee, Florida - John Deahl shot a deer (squirrel) the first day of the hunting season. Wishes it had been a real deer. Sends regards to Gus and all the bunch.

(And that reminds us - Caretaker Charlie Thompson reported seeing a fine buck deer at Miniwanca a couple of weeks ago.)

Bob Murch (St. Louis) has been busy with football, hockey, school, homework, etc. "Good luck to everyone, including the Galesburg flashes - Ned Landon and Terry Brothers." "Camp Memories: 'I've ordered good weather.' 'Don't forget your letters.' Squawman and his orgies."

Bill Richards (Pekin, Illinois) sends everybody best wishes for a Merry Christmas and Happy New Year. Hopes to be in camp again next summer. (And we want you to bring the rest of the family, Bill!)

On arriving home from camp, Ned Landon worked on his Scout tests quite a bit and received his Eagle Scout badge in September. (Congratulations, Ned!) Since then it's been school, model airplanes, and football. "Merry Christmas to all campers and leaders. Be seeing you next year!"

Joe Verlie writes: "Sure - there's always something happening around here. For instance take the dam they're building at Alton. It sure would be interesting if they allowed people in the grounds. An aerial view from the bridge is about the best you can see. The locks are nearly as high as the Coffer Dam now and they're still pouring concrete in. Won't it be fun when the lake's built - Maybe we could move camp down here. But NO, I'd rather go to MINIWANCA in MICHIGAN!"

Gordon Williams writes: "All is well up in Evanston except very windy. Just finished producing a play in high school which was a success. Merry Christmas everybody! See you next summer!"

Bill Oliver (St. Louis) says - first of all - "Coming to camp next summer." His hobby is rabbit raising. Has a dog named "Pat." Goes in for strenuous exercise each day by playing ping pong (of which he is a master).

"Hello everyone!" says Dave Orwig. "Writing this little note brings back many happy memories of the swell times we all had together last summer. The leatherette business hit a bad depression just after camp was over but business is picking up as Christmas approaches. Which reminds me to wish you all a Merry Christmas. I hope all of you are looking forward to camp next year as eagerly as I am. Which also reminds me to wish you a Happy New Year. So long until we meet again at camp next year."

Dick Embree (University City, Mo.) writes: "Here's what I'm doing, snappy and brief - Tooting on the piccolo in the band; burning night oil for school; stepping around the track, and hoping to be at camp next summer."

Marvin Boisseau (also University City) is another dog owner. Says his pup is growing like a weed and busting everything he can procure to tie him - collars, rope, harness, chain, trolley wire, etc. (Some dog, we'd say!) Marv is getting along fine in school and looking forward to the beginning of camp. (Aren't we all?)

Walter Scholz (Webster Groves, Mo.) says: "Bet your sweet life I will be back at Miniwanca next year." Going to John Burroughs School. Activities: Glee Club and Webster Groves Fortnightly; playing football, soccer and baseball in season. Hobbies: collecting stamps and verifications from radio stations . . . has about forty of the latter to date.

Jack Hazelton (Ferguson, Mo.) is busy and eager to get The Trail and hear all about his camp pals. We're expecting Jack back at Miniwanca for another big summer.

Jim Marshutz (Clayton, Mo.) spent Thanksgiving down in Tennessee. Sends regards to all the bunch, including especially Bob Watts, Billy Campbell, Carter Allen and Al Alspach.

"Howdy boys! This is Jim Orwig speakin' an' I think I'll sing . . . . In other words, I'd like to see all of you up at camp next summer. Incidentally, if any of you are interested in Model Aircraft, drop me a line. Merry Christmas!"

AND NOW - let's see what our LEADERS are doing ! ! !

Joe Whitwam's Cross Country Team won the Michigan State Class B championship at Ypsilanti, November 3. (Nice going, Joe!) Joe is also running a Tenikoit Tournament for his boys and starting practice for a Gym Show.

Harvey Whiting writes: "Although I can't say 'Fun at Miniwanca,' I certainly am having a wonderful time at University (Toronto). Practicing about eight hours a week in an Operetta in which I am taking a leading part. I am also manager of our University Water Polo Team and we are busy practicing for the Inter-faculty games next month. Might also add (to the disappointment of some campers) that I am keeping up my violin and playing in a University Symphony. Looking forward to next summer at Miniwanca." (Looks as though Harvey isn't wasting much time.)

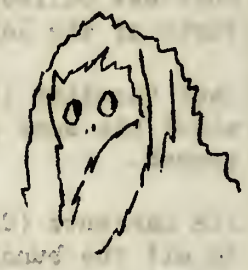
"Greetings, fellow Beaches, Breakers, Creeks and Sands! It's been truly difficult to discard the good old blanket and submit to the numerous whims of civilization which this great and wonderful City of St. Louis seems destined to inflict upon me throughout these winter months. To be sure it is but folly to wish for the grand old days when St. Louis was still a trading-post, for civilization, bad as it is, has come to stay. Nevertheless, if I am able to survive the remaining 190 days until Miniwanca again beckons with her singing sands and blazing camp fires, I'll greet you at the foot of the trail and again encamp with you for seven glorious weeks in the great out-of-doors, the realm of the true Indian." - Gordon S. LetterMAN.

How, how, Gang! If everything is going with you as it is with me, we both ought to be mighty well satisfied. School, clubs, and everything seem to be the best yet and I'm sure they'll continue to be that way till next camping season. Holiday greetings to you all and best wishes." - Mac

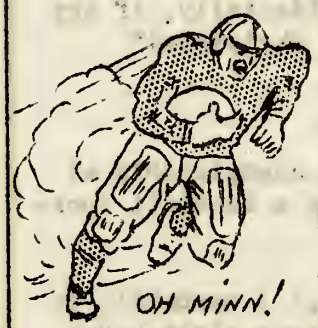
Ford Eads is finishing Junior College this year and is thinking very seriously about taking up dentistry in St. Louis. "Am I planning on going back to camp next summer? Well, what do you think? You'll have a job keeping me away. Why don't some of you birds write?"

Jimmie Kellond is again at the University of Kentucky. Is a member of Phi Kappa Tau and a school "pep" organization, and is interested in intramural compotition.

"I am up here trying to see what makes Proctor tick; so far Harvard Medical School doesn't seem to know - I guess he just runs. How would you like to take a dip in Stony now? Boy, I bet it's plenty cool! Remember some of those dips we took in Michigan's sparkly water on moonlight nights? Of course, we can't forget George (Sheister) Skinner's big fish! I wonder if 'Spenser Dean' Huff and Jim Wig have seen any more ghosts. Those times are gone - but new and better ones await us next summer. C'mon on, Gang, it won't be long now! Merry Christmas and the Best o' Luck!" - Garry



Bob Shank is having a busy year - college, with a lot of science, etc., to study, fraternity duties, and occasional trips to St. Louis.



Bill Schilling says "Hello!" He's certainly proud of that Minnesota football team. Saw all tho games (Lucky dog!). Says every member of the squad is a fine athlete and they all keep regular training. Bill will soon start swimming practice in their fine new pool. Having lots of snow up that way and "Schillinger" thinks it would be swell to have a winter camp at Miniwanca. "Grab your hats, kids, we're off for Old Baldy!"

Don Roberts is in Medical School at West Virginia U. Working extra time on archery - making bows, arrows, etc. Cut down some sassafras trees and had a sawmill saw out squares so we can make some good cheap bows next summer or sooner. Staves cost 25c and shipping charges. Don says Bill Leavenworth and Ned Landon are making some fine archery stuff. (Any other campers wanting to work on archery equipment can obtain supplies direct from Don at very reasonable prices.)

Stoke Westcott has lost three pounds since camp, proving there is one kind of life harder than that of leader in Y. B. "Saw Bill Blelock several weeks ago after a Washington U. football game which had been played in a driving rain. The players had helmets, but Bill and I didn't - I didn't even have a beret. Have a half grown kitten which can out-eat any animal of its own weight I ever saw. Weighs $7\frac{3}{4}$ pounds and still expanding."

The rest of the leaders are hard at work. George Skinner is studying law at the University of Kentucky and Al Alspach is mastering the same subject at the University of Pennsylvania. Al is organist at a local church, has been doing

some tutoring, and has a class of piano pupils. Warren Reynolds is in business up in Toronto.

The entire Leaders' Staff joins in sending very best greetings and good wishes to all their pals of the four tribes of Younger Boys' Camp!

"Well, it's great to get all of this news through the Anthology and we certainly thank you, Stoke, for doing such a good job. And now it is time to adjourn the council after the usual custom:

'Wakonda da dhu, wah pa din ah ton ha!
Wakonda da dhu, wah pa din ah ton ha!'

"Lights out in thirty minutes and be sure that you put seventeen blankets on you to-night, and for goodness sake, don't walk in your sleep. It would be just too bad if some of you skidded down those beautiful steps that now adorn the side of the dune leading up the hill from Stony Lake."

SPEAKING OF THOSE NEW STEPS -

When you get back to camp next summer you are going to see a lot of new things in the Younger Boys' Camp. The first that will catch your eye is the wonderful set of steps that have been built since the close of the camping season last August. Hemlock logs were cut in a nearby forest and sawed up in the country sawmill just a few miles from camp. The lumber was used for building the "Golden Stairs." If you use your imagination when you go up those steps you can just feel that you are walking on trees from our own Stony Lake section of Michigan. There are railing and landings, and seats half way up the hill so that our parents may make the trip in easy stages, and incidentally, sit down and view beautiful Stony Lake on the way up or down.

NEAR THE TOP OF THE HILL

we have a wide flight of steps that will take you up the last eight or ten feet to the very top and there you will find a platform arrangement instead of the bumpy and uneven ground that we had this past summer. Down past the lodge we have built broad steps at intervals and have shored in the sand so that it will be a little bit neater and cleaner at that point.

OVER AT THE BIG CEMENT TENNIS COURT

you will find some more interesting improvements. A shallow gutter about two feet wide has been added to the west end of the tennis court. This will catch the rain water and carry it off in a big cement drain so that we won't have to fear a wash-out such as we had last summer. Over on the east side of the court, a ten foot wide stretch of cement is being added which will make possible the use of the court at times for playing paddle tennis. With this arrangement we can have three paddle tennis courts and it will be possible for twelve fellows to play at one time. More about paddle tennis later. It sure is a great game.

YOU ARE ALSO GOING TO SEE A FINE NEW CRAFT HOUSE

which will probably be built up along the ridge to the north of the Club-house and at a point where those who are working in the Craft House will have a look

out over Stony Lake. This addition will provide plenty of space for the Crafts Department and we will be better equipped than ever next summer to do a very fine piece of work in those classes.

A BIG WAR CANOE THAT WILL SEAT FIFTEEN CAMPERS

is resting on tables in the Assembly Building right at this very moment. This big canoe is twenty-five feet long. It was purchased at the close of the camping season and Charlie Thompson is going to give it a fine coat of Duco and put it in A-1 shape for next summer's Younger Boy and Younger Girl campers. I can just see the tribal groups streaking up Stony Lake in the big Miniwanca war canoe! Sure thing, we'll have tribal competition to establish war canoe cruising records!

WE'RE ALSO PLANNING SOME CHANGES IN THE DOCK

There is a possibility that we will have a "two way" dock that will give us a fine enclosure for handling our Aquatic Meet and also give us better supervision of campers during the swimming hour, and maybe a new boat-house as well.

JUST THINK OF THIS!

At this writing over 33% of the places for next summer's Younger Boys' Camp are already reserved! Here they are:

Charles Beaver
George Bramhall
Junior Bromley
David & Rodney Carley
Malcolm Chandler
John Christian, Jr.
Dan Hafner
Jack Hazelton
Arthur Holtzmann, Jr.
Davie Hunter
David and Charles Jackman
David Jewitt
Carson Kent
Jimmy Marshutz
Sterling McCarthy
Bob McKinney
Bill Oliver
Jim Orwig
Bill and Jim Richards
John Sheckler
Philip Small
John & Willis Terry
Joe Verlie
Proctor Waldo
Teddy Weakley
Don Wells

(Have we missed anybody?)

If you want to be sure of YOUR place at Miniwanca next summer better ask dad or mother to send in your reservation just as soon as possible. A number of the boys listed above are members of the Camp Savings Club. You can join any time before March - the earlier you join, the more credit you get on your camp fee.

Carson Kent is a new camper from Cleveland and will come to camp with the Bromleys Don Wells, and other fine campers from Ohio. Dan Hafner is a brother of Sara Jane Hafner of Hannibal, Mo., one of our choice Younger Girl campers. Malcolm Chandler is the son of a Founder Camp graduate, as are also David and Charles Jackman. Bill Richards will bring brother Jim along next summer, the Richards family establishing a record with four children from one family in camp at the same time. A BIG WELCOME to our MINIWANCA FAMILY - Carson, Malcolm, Dan, Charles, and Jim!

ANNOUNCING

1935 YOUNGER BOYS' CAMP DATES

7 Week Period	June 19 - August 5
1st 4 Week Term	June 19 - July 15
2nd 4 Week Term	July 9 - August 5
Pre-Senior Camp - 8 Week Term . . .	July 9 - September 2
Pre-Senior Camp - 4 Week Term . . .	August 5 - September 2

Just about 190 more days and we'll be pulling into Squaw Bay. O-o-o-h Boy!!!

If you have friends whom you want to have the fine fun of camping with you at Miniwanca - don't fail to send in their names on the enclosed Prospect Blank. Wadjepi will be glad to write to them and send our new illustrated folder just as soon as it comes from the printer.

HOW'S THIS?

Three of our older Y.B. campers - Homer LaBarr, Bill Fraser and Dave Orwig, just can't wait until June so they are going up to Miniwanca during the Christmas holidays. They will bunk out in Wadjepi's log cabin and keep busy chopping wood, working the trails, skating, skiing, etc. We understand, too, that they're planning on a morning dip in Stony. Yea, Cavemen!!

ENDANGERING YOURSELF

Coming Home on the street car, this very night when I received Wadjepi's card, came the extremely thrilling story of Wiley Post's flight into the stratosphere. Ever after new records - ever taking scientific chances! The story of his fight above the clouds to adjust a faulty oxygen valve was of special interest. And how the gale blew him around - first the towns disappeared entirely - and then suddenly he found himself!

No doubt, many of you have been venturing along new lines this Fall and Winter, and have been taking new chances daily. I mean in the schoolroom and in that Sunday School class, as well as on the gridiron or basketball court.

The holidays mean fun and food for most of us, but perhaps we'll find a little time to rest and think. As the church bells ring out in the crisp morning air of Christmas and your home is gay with the symbols of Christmas, I'm sure there will be gratitude in your heart. You will want to be thankful for the birth of Jesus whose way of life you are adopting. There was a magical influence in His life that made people forget themselves and think of others.

Perhaps each one of us will want to exert himself in the New Year to make our world more cheerful, full of tenderness and good will. Why cannot every day of the new year be like Christmas, with friendliness ruling the earth, and no more wars and horrible suffering.

So as we have our fun and yet take time to make a few New Year's resolutions, let's each dare a little something new in our community even when we must take chances of losing popularity.

The season's greetings to you! May we all greet each other on the sand dunes of Miniwanca in a few short months.

- GUS

"In union there is strength." How true! So let's do some uniting on our own score. Bethlehem + Miniwanca, Christmas + Camp, Shepherds + Founders, Manger + Chapel Dune, Glad Tidings of Great Joy + Hymns of Praise. And like the shepherds, the Founders returned to their homes praising God for all the things they had heard and seen.

Merry Christmas to everybody!

- DAD

Hello Younger Boys! Wouldn't it be great sport to toboggan down Old Baldy with its twelve inches of snow? Since we can't do that, we'll look forward to tobogganing on the sand next summer.

May the days of the New Year bring you the finest of life's good things.

- HORACE

To my partners and comrades of the Younger Boys' Founder Camps my warmest personal greetings and best wishes for a joyous holiday season! How I wish I could see you all right now and say this to you in person. Let us remember that Christmas is in celebration of the birth of our Great Founder Leader who has given us in his life the perfect example of balanced four-fold living.

Following our usual custom, Charlie Thompson, our caretaker, will light up the camp Christmas tree. There will be tinsel and ornaments and candles and everything, and it will be our own Miniwanca Christmas tree.

And so on Christmas Eve, let us all think of our Founder Camp and the glorious good times that we have had there, and may we resolve anew to honestly try to be "our own selves at our very best <u>all</u> the time."

- WADJEPI

ROSTER 1934 YOUNGER BOYS' CAMP

(Note: First address, home. Second address, school.)

Garrott Allen, Elkins, W. Va.
Vanderbilt Hall, 240 Longwood Ave., Boston, Mass.
Alfred C. Alspach, 441 N. Duke St., Lancaster, Pa.
